EMPLOYMENT HISTORY

Project Manager

CAMPO VIVO, August 2021 - July 2022

- Develop key goals, budget, activities, KPIS and timeline of Social Projects in order to close socioeconomic gaps in the population of farmers and their families.
- Apply agile methodologies, time management and task tracking to successfully oversee and manage all project stages.
- Ensure project strategies to reach and develop new digital knowledge and skills in the population of farmers and share specific information, videos and tutorials seeking to enhance Financial Education in this region.
- Build and present project reports to the principal sponsor 'Bancolombia Foundation' and comply with the Farmers' Insights to develop financial products for this type of communities.
- Mapping project risks and coming up with a solution when a problem took place to ensure the project was still completed on time, on budget, and to the expected standard.

Global Coordinator

PROTELA, February 2019 - March 2020

- Analysis and proposal of Pricing to global clients, seeking the closure of sustainable, long-term businesses ensuring profitability.
- Ensure compliance with the commitments and requirements of the client with areas of programming, chemical laboratory and quality.
- Oversee and monitor indicators of profitability, operational profit and growth.
- Build confident communication with the clients looking for long term business relationships.

Project Manager

CONSUMER & INSIGHTS- AVANZA , May 2017 - January 2019

- Cooperate in developing project initiatives driven to reach new service markets and structure the projects to reach the commercial goals.
- Elaborate a new Products and Services Developing methodology for the company.
- Benchmarking study to find the insights in the natural gas supply chain in order to increase business incomes.

Mapping Process Consultant

USAID U.S. - OLGOONIK February 2014 - August 2014

- Business process improvement in the DPN (Colombia's National Planning Department) area.
- Organizational strengthening in the stages of planning, stakeholder negotiation, and evaluation in the 'Contratos Plan' process.
- Elaborate a risk control matrix of the projects in place: Identify, evaluate, and manage risk to reduce its impact on the project's implementation.

Regional Corporative Coordinator - Planning and pricing analyst

AVIANCA, September 2021 - May 2013 / June 2002 - November 2005

- Achieve the income budget in the international segments in the 'Preference Program', increasing and enhancing a new market niche, as well as the Avianca's market share.
- Increase international connections in 20 routes of the network through the statistical study.
- Approach and development of Pricing strategies for each international route in charge in the short, medium and long term, allowing consolidation in these markets against the competition.

Market Developer Director

BANCO DE OCCIDENTE, May 2010 - March 2012

- Develop project goals and work collaboratively with cross-functional teams to achieve the goals successfully and effectively with credit card and loans products.
- Develop strategic planning and monitor market KPIS
- Lead teams to improve process and customer retention rates in Colombia's middle cities, through Financial viability and payback periods.

Specialized Professional

POSITIVA COMAÑIA DE SEGUROS, January 2009 - December 2009

- Advise the Commercial Vice presidency on the company's strategic planning.
- Lead the market research process for the company. Evaluate business profitability.
- Quality management system, risk management and process improvement.

Marketing Professional

COLPATRIA, May 2006 - January 2009

- Lead and implement product insurance projects from the financial evaluation to the market launching.
- Provide reports, ad-hoc analysis, and revenue forecast of the insurance products.
- Model revenue and costs of the different projects in order to evaluate their profitability.
